### Authors may accompany their manuscripts with floppy disks

Please see the notes on the inside back cover and the guide at the back of this issue. Authors are requested to submit a completed checklist with each diskette. Additional copies of the guide and the checklist are available from the publisher. *Please ensure that the disk version and the hardcopy are identical—discrepancies can lead to publication of the wrong version*

- All authors are strongly encouraged to include with their manuscripts the facsimile number where they may be contacted. Communication by facsimile can greatly assist in speeding publication.
- Please note that with immediate effect all accepted manuscripts should be accompanied by a set of copies of figures and tables as well as the original camera-ready versions.
